Arizona statutes provide a tax credit for expenses incurred to purchase real or personal property that is used within Arizona in the taxpayer's trade or business to control or prevent pollution. The amount of the credit is equal to 10 percent of the purchase price. For years subsequent to 1996 the maximum credit which may be claimed in a taxable year is \$500,000.

A credit allowed under ARS § 43-1081 or § 43-1170 (pollution control equipment) is in lieu of a credit under ARS § 43-1076 or § 43-1164 (recycling equipment credit) with respect to the same equipment.

Co-owners of a business, including partners in a partnership and shareholders of an S corporation, may each claim only the pro rata share of the credit allowed based on the ownership interest. The total of the credits allowed all such owners may not exceed the amount that would have been allowed for a sole owner of the business.

Qualifying property includes a structure, building, installation,

excavation, machine, equipment, and any attachment to, or addition to, or reconstruction, replacement, or improvement of that property. Property eligible for the tax credit includes only that portion of the property directly used, constructed, or installed in Arizona to prevent, monitor, or reduce air, water, or land pollution. The property must meet or exceed rules or regulations adopted for this purpose by the United States Environmental Protection Agency, the Arizona Department of Environmental Quality, or a political subdivision of Arizona.

Amounts that qualify for the credit must be includible in the taxpayer's adjusted basis for the property. The adjusted basis of any property for which the taxpayer has claimed a credit must be reduced by the amount of credit claimed for that property.

If the allowable tax credit exceeds the taxes otherwise due or, if there are no taxes due, the amount of the credit not used to offset taxes may be carried forward for not more than five taxable years as a credit against subsequent years' income tax liabilities.

Line-by-Line Instructions

Complete the name and taxpayer identification number section at the top of the form. Fiscal year basis taxpayers must indicate the period covered by the taxable year. Attach the completed form to the tax return.

All returns, statements, and other documents filed with the Department of Revenue require a taxpayer identification number (TIN). The TIN is either a correct social security number or, for a business, the federal employer identification number. Paid tax preparers must also include their TIN on forms where requested.

Taxpayers and paid preparers failing to include the proper TIN may be subject to a penalty. Please check the return to be sure that all required identification numbers are accurate and written

clearly. Missing, incorrect, or unclear identification numbers may cause delays in processing the returns.
